BRIEF SUMMARY

To employ myself in a progressive organization that provides the scope to update my practical knowledge and skills in accordance with the latest trends and be part of a team that dynamically works towards the growth of the organization. I am looking for a software developer job where I can utilize my programming skills to develop console applications or web applications. My goal is to achieve a challenging position as a developer in a result-oriented company, where acquired skills and education will be utilized.

KEY EXPERTISE

Java Python C# PHP DBMS HTML5 CSS Django Spring Boot MySQL

PROJECTS

Cafe Manager Mentor: Mrs. Hemangi mam Team Size: 1 Key Skills: java angular mysql Developed a standalone application for cafe owners to manage daily transactions. The application features a user-friendly interface with proper validations. The project contains multiple modules to simplify their work. There are two roles in this application: Admin and User, where the admin enables users to use the application. The application also produces bills in the form of .pdf or documents.	20 Dec, 2023 - 22 May, 2024
Employee Management System Mentor: _ Team Size: 1 Key Skills: java MySQL Exception Handling Awt Swing Project Link: https://github.com/Tusharmore1212/Employee-Management-System.git Developed a console application to manage the employee data of organizations. The technology used to develop this application is Java (Swing, AWT) and MySQL server. It has a user-friendly interface. Only one user is required to handle this system. The system has four modules: Add_employee, View_employee, Update_employee_details, and Remove_employee_details. The project also includes a print module to generate reports of employee details.	01 Jan, 2024 - 10 Jan, 2024
Navigator for disabled poeple Mentor: Ms. Yogeshwari Yawalkar Team Size: 2 Key Skills: php MySQL HTML CSS	20 Apr, 2023 - 24 Aug, 2023

Project Link: <https://github.com/Tusharmore1212/travel-navigator.git>

Developed a web application for disabled people to help them while traveling. It has a user-friendly interface designed using technologies like PHP, Bootstrap, HTML, and CSS. Hotel owners who provide extra facilities for disabled people can register themselves on this website. Users can visit registered hotels on the site, check the amenities they provide, and based on their needs, make reservations at these hotels.

Audio Book

21 Nov, 2022 - 15 Feb, 2023

Mentor: Ms Nisarga Mam | **Team Size:** 2

Key Skills: Java Javascript

Developed a console application that enables conversion between text and audio. The project provides a user-friendly interface to convert text files to audio files or audio files to text files. This application is developed using Java (Swing, AWT). Third-party APIs like FreeTTS are used for conversion. The system can read PDF files using APIs and convert them into audio. Conversely, the system can recognize user speech, convert it into text, and save that text into a .txt file. We store the converted files in the computer file system.

Dairy Management System

30 Jan, 2022 - 16 Jun, 2022

Mentor: Dr. Jyoti Rainak | **Team Size:** 2

Key Skills: C# Microsoft SQL Server Exception Handling

Project Link: <https://github.com/Tusharmore1212/Dairy-Management-System>

Developed a desktop application for a dairy owner to maintain records of activities related to the dairy. Designed the user interface in Marathi as per the user's requirements. It provides low processing time and accurate results. The technology used in this project is C# and Microsoft SQL Server. The system contains modules like Collection, Add_customer, Fat_rates, and Products. This project generates multiple reports as needed.

ATM Clone

12 Jun, 2021 - 18 Jan, 2022

Mentor: MS Sawant | **Team Size:** 2

Key Skills: C# MYSQL

Project Link: <https://github.com/Tusharmore1212/ATM/tree/main>

Developed a desktop application similar to an ATM machine system. It has a user-friendly interface with two languages: English and Hindi. The system contains modules like Deposit, Withdraw, Check Balance, Transfer, Change Password, and Update Aadhar Number. The technology used to develop this project is C# and Microsoft SQL Server. The project provides mini-statement reports and transaction receipts.

PERSONAL INTERESTS / HOBBIES

- Communicating with Strangers
- Working with Computers
